

PS3i

pressure seal

The PS3i is a medium to high volume inline pressure sealer. It runs at a speed of 5700 forms per hour in its stand-alone capacity. PS3i can also be used as a paper folder, providing easy folding of invoices, letters and many more applications.

Features:

- Medium to high volume inline system
- Paper thickness sensor
- 200 forms output catch tray
- Full jam detection
- Low noise
- LCD display
- Compatible with HP & Kyocera
- The PS3i comes complete with a prokit and interface included.
- Optional cabinet

Benefits:

- Wide range of applications
- Secure data
- Cost effective solution
- Time saving method
- Print, Seal and Post

Forms are printed to your specification with a range of fold options to meet with the bespoke needs of each and every customer.

“Pressure Sealing eliminates the need for envelopes. The process folds and seals forms to produce secure, confidential documents that are ready to post. Pressure sealing dramatically improves efficiency and reduces costs, while taking the hassle out of mailings.”
